

LAB WORK SHEET

SPECIMEN INFORMATION

Class (CL):

Genus (GEN):

Species (SP):

ROM number:

Specimen number:

Field number:

Specimen Nature (SPENA):

Initial condition (KIC):

PREPARATION/CONSERVATION

Preparation start (DPRS):

Preparation finish (DPRF):

Preparator (PR):

Preparation tools: (i.e. manual, air scribe, grinder, etc)(PRT):

Air abrasive with _____

Acid preparation with/acid %

Solvent:

Adhesive / glues:

Consolidant:

Area of consolidation:

Filler:

filler location:

Specimen support:

Sediment sample:

Thin section No.:

Photo No:

X-ray Data:

Experimental Treatment:

Preparation treatment comments:

MOLDING/CASTING

Molding / Casting Date:

Parts of specimen molded / cast:

Mold / cast Preparator:

Mold Type/Mother mold:

Molding / casting compound:

Dike Material:

Separator:

Casting material:

Number of Casts and locations:

Molding / Casting Remarks/Effects on specimen / mold:
